

# NY PERC'S 2024 SAFE APPLIANCE INSTALLATION/REBATE PROGRAM

## Marketer Registration Form (MRF)

### PROGRAM REQUIREMENTS

1. Rebate offer applies to all SAFETY CHECKS on replacement of units with propane that are installed **MARCH 1, 2024 to DECEMBER 31, 2024** or until campaign funds are depleted. Propane-to-propane conversions and new construction installations **are** eligible. Rebate applications must be received at NYPGA during the active rebate period designated by December 31 for consideration.
2. This **Marketer Registration Form (MRF)** must be submitted by your company (for each location) once during 2024, prior to any rebate applications, to participate in the rebate program. You may also complete the [MRF form online](#).
3. The **BUYER'S Rebate Application** form must be completed by both you and your customer before or upon the installation of the equipment.
4. The program is on a first come, first served basis. Once all rebate funding has been reserved/awarded the program will end.
5. The program will be administered by the NY PERC office with rebate checks going directly from the NY PERC to the consumer.
6. The NY PERC Marketing Committee reserves the right to periodically evaluate and adjust all aspects of the Program, as it deems necessary.
7. It is the Propane Marketer Accredited Representative's responsibility to become fully versed with the requirements of the NY PERC's Safe Appliance Installation/Rebate program.
8. The Propane Marketer Accredited "MRF" Representative will be the only person from the company to handle rebate communications with NY PERC which includes emailing and calling about rebates. NY PERC will only accept rebate paperwork from the Propane Marketer's Accredited Representative. A propane marketer with more than one location may have one Accredited Representative from each location.

I, **\*please print\*** \_\_\_\_\_, certify that I understand the above-stated rules, will train my employees to properly complete a safety check, will review safety checks prior to submission, be the Accredited Representative for my company location and will address any rebate discrepancies. I further understand that it is my responsibility to facilitate all rebate questions with my employees and customers and not refer them to the NY PERC.

*The safety inspection accompanying the installation of the qualifying appliance(s) will include one or more of the following: 1) a leak test; 2) a pressure test if required by applicable laws, rules and regulations; and 3) a flow and lock up test on the regulator[s].*

Print Name \_\_\_\_\_

Company Name \_\_\_\_\_

Company Address \_\_\_\_\_
